- Developers (Queenswood Land Associates) control about 1000 acres at present
- present limit on registration of lots is 200 per year
- suggested a programmed plan, in a 5-year cycle, to eliminate pockets of confused development.
- area being constructed this year is Plan 27
- Township wanted the 88 lots south of Lacroix finished first but the necessary sewer and water services are not available to date
- 10 th line road to be paved from old 17 to at least the Queenswood corner

The general consensus was that there is still a great more to be done with the Planning Board and that we should be asked to make comments to them from time to time.

10. L. Jolliffe moved that the meeting be adjourned; seconded by M. Devost.
