Minutes of the QHCA Meeting
November 2, 2022

St-George north end paving was planned for 2022 but a strike in the construction industry (cement?) has pushed it to 2023.

The building of an apartment building on 10th Line, backing onto Phoenix, is going ahead. Right in and right out on 10th Line ONLY, no other access. The building was originally planned for 30 units and 3 stories, will be less than 30 units.

The owners of the land on Duford @ St-Joseph have put the land up for sale.

360 Kennedy Lane East, 81 rental units, mix of 3 story walk upstairs, 30% affordable housing.

Wayside path and bridge to be fixed

Rat issue: Queenswood Heights has a rat issue. Bird feeders attract them and so does a messy outside that rats can use to house themselves.

Community safety: Constable Marc Leroux is the Ottawa police representative for Queenswood Heights.

The shootings were targeted and no further danger to the public.

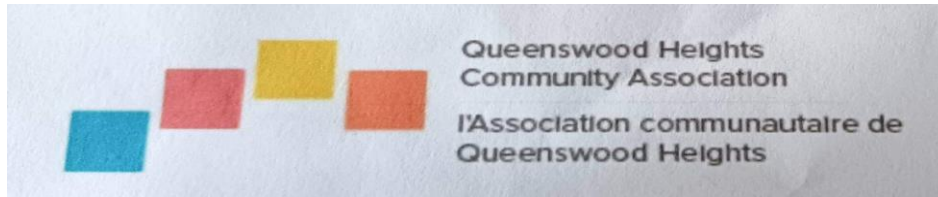

Queenswood Ridge Park, currently looking to add more lighting.

Matt's Vision: Maintain and invest in our infrastructure, connected and safe community. Accessible, support low income housing.

Carole: The CCRC coalition includes post incident Neighbourhood support.

Elsie: W.I.S.E. organization offers community safety audits and personal safety workshops, including workshops for youth and women.

9. Facebook needs to be updated, Denis to follow up;
